

Career Objectives: Atin Singla

Diligent application developer seeking opportunity to leverage my skill and expertise in the field of IOT systems. BITS WILP MTech in Software Systems programme gives me the flexibility of working with my current organization and keep learning as well while working. This will help me in improving my skill, in the current organization, as I work with Digital IOT device used in manufacturing systems. This will make me grow in a good direction in my career and evolve into a positive asset for my organization.
